Exhibitor Specifications

DISPLAY REGULATIONS

Standard Booth Definition: One or more standard 10' x 10' booth(s) in a straight line. Each booth is furnished with one (1) 5 amp electrical outlet.

Display rules and regulations specify what an exhibitor can and cannot do with their booth space. These are based on the physical characteristics of the Exhibit Hall, the intent to be equally fair to all exhibitors and the concern for the safety of all attendees. Show management has provided the following design layouts to make sure each exhibitor is within show guidelines. A quick review of these booth regulations can save you costly and potentially embarrassing changes on site.

Booth Design

- Booth back walls may not exceed 10' height, plus 2' for signs (the backside of any such signs must be properly covered).
- All display fixtures over 4' in height and placed within 10' of an adjoining exhibitor must be confined to an area that is at least 5' from the aisle. The back of any such sidewalls must be covered so as not to appear unsightly.
- Exhibitors using canopies or false ceilings over their exhibit may use vertical supports up to 3" in width in the corner of their space. Vertical supports that are strictly decorative will not be permitted if in conflict with the rules stated above.
- Nothing may be suspended from the ceiling in a standard booth.

Intent: Each exhibitor is entitled to a reasonable sight line from the aisle regardless of the space size. Exhibitors with larger space (30' or more) should also be able to effectively use as much of the total floor space as possible as long as they do not interfere with the rights of others.

Bulk Space

No space dividers or drapes are furnished.

Proper Aisle Flow

The aisles are property of the Show Management, and must be free for easy flow of traffic throughout the entire show. Aisles must not be obstructed at any time.

Sound

Noise level from any demonstrations or sound systems **must be kept to a minimum**. Under **no** circumstances will the following be allowed in the Show: megaphones, loud speakers, microphones, side show tactics, or undignified methods of attracting attention. All sound systems and demonstrations **must** be strictly approved by Show Management prior to the show. **No exceptions!!!**

Signage

No signs are to be hung over the aisles as they are the property of the Show Management. **No helium balloons.**

Merchandise Sales

If you are selling items that are to be hand carried, please issue your customer a **Bill of Sale**. This will serve as proof of ownership in the event of questioning by a doorman.

Exhibitor Restock and Early Admittance

- The amperage of the extension cords shall not be less than the rated capacity of the portable appliance supplied by the cord.
- Extension cords shall be maintained in good condition without splices, deterioration or damage.
- The extension cords shall be grounded when servicing grounded portable appliances.

Display of liquid and gas fueled vehicles and equipment inside an assembly occupancy shall be in accordance with UPC 2505.2 and shall meet the following requirements:
